Galgo Wines is a special wine project founded by Ezequiel Sanchez Mateos. Daily contact with wine producers in the different regions led to his direct involvement in the wine production dating back already in the late '90.

The main goal is to elaborate wines that are attractive, fairly priced and made from indigenous varieties. The ongoing projects involve the whole Iberian Peninsula.

We are currently working in nine regions: Alentejo, Sierra de Gredos, Calatayud, Conca de Barberá, Douro, Mancha, Manchuela, Rioja and Sierra del Segura.
